

Daisy Chains 1

Each of these puzzles consists of a single chain of words winding its way through every letter in the diagram by taking a series of right-angled turns. The last letter of one word is used again as the first letter of the next. Clues to the words are given consecutively below. The starting location of the chain is the shaded square, and the repeated first/last letters are circled. In the first puzzle, the gray line indicates the first word.

Answers on page 125
